

KABA[®]

E50 Digital Door Lock

Designed artistically for luxury apartments and houses, E50 offers no compromise when it comes to reliability and performance, featuring security, dependability and versatility in attractive designs and finishes. E50 is assembled with superbly engineered components of high-grade materials for long-lasting reliability and its sleek and chic design guarantee to complement your taste and lifestyle.

Benefits & Features

www.kaba.com

You Won't Need Keys Anymore

E50 eliminates issues commonly associated with mechanical keyed locks. It's easy to mislay your keys or accidentally left locked at home. This isn't a problem with E50. You can now unlock your door with a simple touch.

Multiple Locking Methods for Multiple Users

E50 supports two types of secured unlocking methods which include PIN Code and Mechanical Key Override. Instead of having to make multiple keys for your home; it's easy to program E50 for multiple users. This means that you can easily program the lock so it can be used by trusted friends and other family members without risking your home security.

Robust Mechanical Structure

Employing advanced engineering and optimal structure design, E50 provides uncompromising quality: tested to over 200 thousand duty cycles.

Simple Installation and Use

E50 is designed for ease of use and installation for new or existing homes. Compatible with standard 161 door prep, E50 could replace most tubular locks without additional drilling. Works as a standalone unit and requires no wiring during installation, eliminating the expensive material and labor costs of installing electrical wiring. User registration and various settings can be done directly at the device, which allows every user including children and senior to operate easily.

Anti-Break-in/Damage Alarm Protection

Alarm will go off if anyone attempts to damage the lock or forces the door open.

Visitor-Friendly with Optional Passage Mode

Expecting unregistered guests? Passage mode is just the answer for you; it allows free access of the secured area when activated.

Mechanical Key Override Protection

In the event of an emergency, the digital door lock can be opened with a mechanical key.

Low Battery Warning

It warns in case of low battery.

And much more

With all the benefits E50 offers, it's clear to see why tremendous home owners worldwide have chosen the E50 for their homes. It is a smart investment!
